EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ronald Kananen on 11/4/2003.

The application has been amended as follows:

1. Cancel claims 9-23.

Allowed Claims: 1-8 and 24-30.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: none of the prior art either alone or in combination disclose or teach of the claimed combination of limitations to warrant a rejection under 35 USC 102 or 103. The best cited reference, Tanaka et al (U.S. 5,684,641) fails to meet the limitations of that of the claimed invention.

Specifically, with respect to independent claims 1, Tanaka et al fails to disclose an optical lens specifically comprising a continuous flat face on a first side through which an axis in a focus direction of said optical lens passes.

Specifically, with respect to independent claim 24, Tanaka et al fails to disclose an optical pickup apparatus comprising an optical member including an optical lens

specifically comprising a continuous flat face on a first side through which an axis in a focus direction of said optical lens passes.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

CONCLUSION

Therefore, due to the reasons cited above, Tanaka et al teaches away from that of the claimed invention.
